

PSAC 901 

Strike Vote Townhall

Friday, February 4th at 1:00pm

or

Monday February 7th at 5:30pm

As of January 2022, after over a semester of stalled bargaining, Queen's administration walked away from the negotiation table, refusing to improve graduate student working conditions. In response to this unjust measure, we are forced to consider the possibility of a worker's strike, in order to achieve an improved and fair contract for the upcoming years.

With a strike vote approaching us, it is critical for us to have a considered discussion of what our choices are, and come to a democratic consensus on our plan of action going forward. Please join your colleagues and make your opinions known at the upcoming Strike Vote Townhalls.

If you have any questions that you would like answered at this session, please use the [registration form](#) to make them known.

Registration is not mandatory.

Sessions are only **open to Queen's graduate students.**
