March 27, 2025

To: Queen's University administration

CUPW Local 556 wishes to express their continued resolute support and solidarity with Queen's University's graduate student workers and our condemnation of the administration at Queen's University which refuses to meet their demands for fair and just treatment.

CUPW recognizes that public services such as those provided by the members of PSAC 901 enhance the quality of people's lives and are fundamental to the creation of societies that are equal, prosperous and democratic. When public services are universally available, they nourish and enrich our lives and promote solidarity within our communities.

Ignoring the well-being of workers whose labour is so vital to the success of the university and community is harmful not only the members themselves, but to all students and faculty at Queen's University. CUPW Local 556 urges the administration to reconsider its approach to bargaining and to offer employees the resources and compensation they need to continue their valuable contributions.

CUPW Local 556 is proud to stand with Queen's University graduate student workers and values their commitment to our community.

Sincerely,
